Subject: Re: Next Draft Agenda and Materials for Boise Framework Workshop Sept 3
Attachments: Sept 3-4 Meeting Notes (EPA, DEQ, WP, TFT).docx

Hi Lower Boise Team.

Attached are my notes from last week's meeting, including the concrete outcomes and initial work plan elements. If you like, feel free to make revisions or additions, especially to the Tentative Decisions and Work Plan sections. We (WP) will create a separate work plan, but I wanted to get this out while the meeting is still relatively fresh in your minds.

Look forward to talking to you all again soon.

Tim

Hi folks,

We think we have a final agenda and some briefing materials for the Sept 3-4 workshop on the Boise Framework at EPA in Seattle (Marti and Claire, let me know if I screwed anything up, and we can adjust).

Marti is hoping the end product of our efforts is an updated list of Idaho Trading Guidance elements (e.g., contents of a DMR, trade tracking/verification, creating a baseline, general terms for measuring/calculating credits. etc) and for the Lower Boise Framework (e.g., ratios, specific baselines, pre-approved BMPs, etc.).

For this workshop, we've structured the agenda where we think the biggest areas of conversation are, but not wanting to take anything for granted, Tim M. and I have compared every elements of the Regional Recommendations with the Idaho documents. There's a lot of consistency already, and a lot of places where the Idaho docs are silent should be pretty easy to fill in (i.e., I'm pretty sure IDEQ knows what it intended/wanted back in the early 2000s).

My hope, is that Marti walks away with a a number of preferred options for the ID documents, and we have a really clear workplan for the elements that will need some more work and/or discussion.

Attached for your pleasure:

- Agenda
- Comparison table between Regional Recommendations and Boise Framework (from WP's side of things)
- ID Guidance (2010)
- Boise Framework Recommendations (2000)

Let me know if you have any questions, and we're excited to see you on Sept 3 at 10am.

Bobby
